

## Belifal Solar Charge Controller (12V 10A)

### Specifications

Application	Ideal for 12V Pv System: 150W Solar Panel,12V Lead-acid Battery,22V for Max input Voltage.
Features	Excellent Charging algorithm, temperature compensated set points. Adequate protections and indications. Negligible voltage drops. Negligible self consumption. Offers long life to battery. Non-corrosive terminals. Compact in size and easy to install.
Package Content	1xCharge Controller, Manual.
Weight	0.25 Kg.
Box Dimension	14.6 x 12.6 x 6 cm.
